Subject: A-76 Revisions

Erdman Anthony (EA) is in support of the A-76 revision. EA has a team of highly trained professionals who have been in the business of "geospatial activities" such as photogrammetry, surveying, mapping, and more for over 40 years. As many other private sector companies, EA is currently not being offered certain opportunities in the federal markets due to the current practices. EA specifically supports the elimination of unfair competition under agency to agency agreements. EA is opposed to agencies be awarded contracts for other federal agencies, and for state and local governments.
